Our Reference: File E335439 Project No: 09CA52958
Your Reference: Guangyin Ji 10/1
Subject: Notice of Completion of the Engineering Investigation and Requirement for an Initial
Production Inspection (IPI), Models HM-002, HM-003, HM-003

Dear MR. Ji:

Any information and documentation involving UL Mark services are provided on behalf of Underwriters Laboratories Inc. (UL) or any authorized licensee of UL.

The engineering investigation under the above project number has been completed. This letter does not authorize use of the UL Mark on the products under the above project number.

Before you may begin shipping product with the UL Mark at each of the manufacturing locations listed below, an Initial Production Inspection (IPI) must be successfully performed by a UL representative at the manufacturing location(s):

1. Bao Ying County Huaming Ceramics Co Ltd
Industry Zone Liubao Of Baoying County
Baoying, Jiangsu 225800
China

The IPI is intended to confirm that the manufacturer is capable of producing a product in accordance with UL's requirements. **THE MANUFACTURER MAY NOT SHIP PRODUCTS WITH THE UL MARK UNTIL THE IPI HAS BEEN COMPLETED AND UL HAS FOUND THE PRODUCTS AT THE FACTORY TO COMPLY WITH OUR REQUIREMENTS.** Once this has been successfully completed the manufacturer(s) will be granted authorization to ship products bearing the UL Recognition Mark.

It is the responsibility of Bao Ying County Huaming Ceramics Co Ltd, the Applicant, to inform its manufacturers of that the IPI must be successfully completed before product may be shipped with the UL Mark. Instructions for the IPI will be sent to our inspection center nearest to each of your manufacturing locations. The contact information of the inspection center is provided at the end of this letter. Please contact the inspection center to schedule the IPI and ask any questions you may have regarding the IPI.

Within Canada, there are federal and local statutes and regulations, such as the Consumer Packaging and Labeling Act, requiring the use of bilingual product markings on products intended for the Canadian market. It is the responsibility of the manufacturer (or distributor) to comply with this law. The UL Follow-Up Service Procedures will only include the English versions of the markings

In any correspondence concerning this investigation, please refer to the above file and project number.

Sincerely,
